

Hi-Traffic Entrance Mat Shop Drawings

The Musson Hi-Traffic carpet matting is constructed using the most advanced generation of large denier 100% polypropylene fiber with needle-punch carpet technology, at 65 oz.-per-square-yard. Produced with an extremely coarse ribbed surface, this mat is sure to fulfill the wiper/scrapper function high traffic areas need. Needle-punch design provides superior appearance and ensures there will be no zippering or edge ravel. This product can be loose-laid or adhered to floor with easy-release adhesive.

The Musson Hi-Traffic carpet matting is 100% polypropylene large denier fiber, stain resistant, UV stable, provides permanent static control, will not absorb or retain water, resists mold, mildew and most chemicals, has a latex gel backing and is moisture and slip resistant.

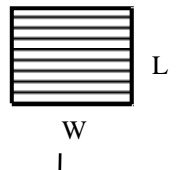

Specifications - #HT-CM

Furnish and install Musson No. HT-CM Hi-Traffic Entrance Carpet Matting of 100% polypropylene fiber needle punch carpet. Carpet matting shall have a longitudinal rib pattern, be of first quality and free from surface defects. Install 3/8" thick carpet matting, cut to size from standard widths and lengths, in recess areas as indicated using recommended easy release adhesive, (or on surface areas with aluminum or vinyl beveled edging). Select from standard carpet colors of Gray, Charcoal, Black Shadow, Midnight Sky, Aspen, Sisal, Beige, Harvest, Chocolate and Bordeaux.

<i>Quantity</i>	<i>Size(L x W)</i>	<i>Color</i>	<i>Edging Attached(Y/N)</i>	<i>*Recess Frame Position (if necessary)</i>

**Mats are offered in: Full rolls of 6'6" and 13'2" widths x 82' long.
 Cut lengths of 6'6" and 13'2" widths x any length up to 82'.
