

## **MAINTENANCE INSTRUCTIONS FOR FABRIC TIRE LINK MATS & DURA-RUG LINK MATS**

### **DO's:**

- 1) Vacuum surface daily.
- 2) Roll up and vacuum underneath at least once a week.
- 3) Hose or wet mat and brush with a stiff brush to remove heavy soil. Use a mild detergent or plain luke-warm water.
- 4) Stand mat on end of roll to drain dry.
- 5) Storing: If a mat must be stored, clean it first, turn it upside down, and roll on core. Lay flat – NEVER ON END.

### **DON'TS:**

- 1) Don't pull mat by corners to change position or clean.
- 2) Don't wash mat with solvents or caustic solutions.
- 3) Never fold a link mat.
- 4) Don't lift rolled mat without supporting the center of roll.
- 5) Don't permit heavy machinery or vehicles to move over mat.
